NBC gas filter systems

## **Ben Pat's Experience**

### **Distributor**

#### *Stemtech Malaysia*

June 2010 – Present (2 years 2 months)

“Supporting the release of stem cells from the bone marrow and increasing the number of circulating stem cells is probably the single most important thing you can do to improve your health”  
StemEnhance® is a blend of two compounds extracted from the widely consumed aquatic botanical Aphanizomenon flos-aquae (AFA). One extract, which contains an L-selectin ligand, supports the natural release of stem cells (CD34+ cells) from the bone marrow. The other extract, a

polysaccharide-rich fraction named Migratose™, may support the migration of stem cells out of the blood into tissues.

It is also to be noted that this man supports the medical practice of Stemcell research and we submit the following for your cogitation:

#### **JUST GENES**

They say they`re just genes,

But what have we done?

They`re God`s genes,

Have we come undone?

Stemcell production,

Embryonic destruction,

Do they kill at will?

Too late until;

Genetic abominations,

Cell manipulations,

Is there murder there?

Why do they dare;

It`s cut and dry,

Why do they try?

Are they playing God?

Making their own rod;

Will they be as He?

No needing He;  
Healing mankind,  
Leaving the Creator behind;  
But when all goes wrong,  
Trying life to prolong,  
But what then?  
Will they come to an end?  
The world overpopulated,  
A new panic created,  
Then we start again,  
Ridding the world of men;  
Another atrocity,  
For God to see,  
How much patience has He?  
Another killing spree;  
It`s God`s creation giving animation,  
Not man`s experimentation causing annihilation;  
Straight from the pit of hell,  
This lie they sometime tell;  
Just Genes?....or,  
God`s Genes,....  
You soon will know,  
As His judgment coming will show:

The Sixth commandment: "THOU SHALT NOT KILL". Ex. 20/13.

Ps. 24/1 "THE EARTH IS THE LORD`S, AND THE FULNESS THEREOF; THE WORLD, AND THEY THAT DWELL THEREIN".

5<sup>Th</sup> April 2002.
